

# Top 10 reasons why you should do Blastoff!

1. A person can build a blastoff network of literally hundreds of people in a relatively short amount of time. The network builds virally and so there is very little you do once it gets started.
2. You get paid on purchases, travel and home services on up to 10 levels or degrees of separation from you. This means you get paid on people that you do not even know.
3. There is no cost to join Blastoff. It's **FREE!** This alone will make it grow very very fast! People like Free!
4. People will save money by using their Blastoff Mall. The retailers in the mall offer a 1% to 17% cash back incentive. Blastoff has also negotiated some great deals on satellite, cellular, and travel.
5. The money is amazing! You save money by getting cash rebates on every purchase and you make money by sharing the love and getting others to join and use the savings through blastoff.
6. Building a network is simple and easy. Upload your contacts and the system sends out an invitation. You can also hand out Blastoff cards to people or promote it through Facebook, Twitter and My Space.
7. You are on the ground floor! Rarely do you get a chance to be on the ground floor of something so big. The best opportunity exists when nobody has what you are offering! This is where most fortunes are created.
8. Blastoff is FUN! Many people will be attracted to Blastoff just because it is fun. The game panel, media panel, and social networking panels are great draws for millions!
9. The sky is the limit! You can sign up as many people as you want. There is no limit to the number of people you can personally sponsor and your network continues to grow even without your effort.
10. You are just one person away from a Blastoff explosion! What if you enrolled just one person that brought in 100 people personally. If everyone just enrolled three people you would have thousands of people in your blastoff network!
